Women's and children's health is an important topic to be discussed in the present context. Recognizing the health of women and children is key to progress on all development goals. One day these children will become future leaders, so in order to develop the country, they should have mental and physical health. So this is the ideal time to discuss the significance of women's and children's health. Worldwide ladies' wellbeing market has been developing at a wonderful pace in the previous hardly any years because of developing a number of menopausal conditions among ladies. For that they need a platform to share their knowledge. We could say we create a golden opportunity for those people to expose their knowledge through this conference. As with previous conferences the aim of this conference is to provide a multidisciplinary forum for presentations and discussion of recent, on-going research and innovations regarding **women's and Children's health** from leaders in academia and industry worldwide, breastfeeding and the importance of balanced nutrition and health

Conference will be starting with the opening ceremony by lightning the traditional oil lamp. Then the reputed speakers from different countries will deliver the keynote speeches. After that you will be exposing to important scientific researches presented by different presenters from all around the world. Time for building important business connections while enjoying relaxed conference breaks, lunches and dinner. On the next day there will be the cultural tour, you will be able to witness the beauty of the pearl of the Indian Ocean while relaxing your mind.

The **ICWCH** provides valuable opportunity for academics, researchers, doctors, nurses, food scientist, dieticians, industry leaders, industry representatives, advanced students, and other persons who are interesting in the field on sustainable development around worldwide to present their ideas, suggestions, research findings, experiences, innovations. Gathering of pool of human resources can easily identify changes happening in this field, trends, favourable & unfavourable factors affecting to the subject area, industry development factors, global changes etc. Participants will be able to sharpen up their knowledge, step forward their position in industry, build up effective connections between industry leaders and go ahead in their career path. In addition, all the submitted full papers will be included in the conference proceedings CD and proceeding book.
