Midwifery congress 2020 provides best platform to expand your network, where you can meet scientists, authorities and CROs from around the world. It's your time to grab the opportunity to join Midwifery congress 2020 for promoting your research article and to facilitate prestigious award in all categories. In this fame, we look forward for your contribution and astonishing dedication to make our Midwifery congress 2020 more successful. This global event will provide an excellent opportunity for Doctors, Health care experts, Hospital Administrators, Epidemiologists, Nutritionists, Physicians, Nurse practitioners, Health care analysts, Doctors, Business delegates, Young Researchers encouraging the pro-found administration of medicaments and explore case reports with the results to justify cure and healing for various ailments.

2020 International year of nursing and midwifery- Noting that 2020 was the 200th anniversary of the birth of one of the founders of modern nursing, Florence Nightingale, the WHO Board recommended to the Health Assembly to designate 2020 as the Year of Nursing and Midwifery. Thus it makes this conference so important if you want to contribute a sustainable add on to boost up the detailed approaches of Midwifery concept. Midwifery Congress 2020 is looking forward to seeing all in Sydney, Australia.

The prize winning papers will be considered for publication

in the international journals once the paper is subjected to standard review procedures. The Midwifery and Women's Health Conference will be hosting presentations based upon the few highlights as Smart IT counselling in Midwifery practices, Women's Health Digitalization with a revolutionised Hospital Information System, Global Midwifery Advocacy: policies, current issues and its management, Healthcare IT Management for smart workplace practices and much more.

The distinguished tracks are having a disperse information regarding the Midwifery congress 2020 new innovations and Information Technologies. This year our event will be focusing on the global phenomenon of the possible quality inputs in Midwifery practices, if nurtured with a vintage epitome of organized administrative management of well-balanced digital nutrition , can have the power to remould the old midwifery concept into a revolution of Digital Ambassadors which can eventually restyle the whole outlook of Nursing & Healthcare Management .It is to address Midwifery and Women's Health-related scientific communities to leap into this beautiful revolution of digital Ambassador into every aspect of Midwifery and Women's Health sector and reveal the quality digital technologies to firm up and elevate women's health before, during and after pregnancy. The aim is to explore smart management strategies planning ,implementation and its technical execution in an dynamically analytical manner , so that the midwives can facilitate themselves into a digital platform and can become role model globally with modernized concept of paediatrics IT and digital psychological counselling in hypno birthing ,thereby giving pregnant women to experience a adventurous journey of birthing. Augmented reality (AR) technology can change the global face of Midwifery to a level beyond limits. Using AR headsets and lifelike models of full-term mothers, trainee midwives can take part in fully simulated births.AR technology offers users an interactive experience in which objects in the real world are enhanced by computer-generated information. AR system allows new midwives to understand better the birthing process by displaying an interactive representation of a patient's anatomy. Digital Midwives can play a crucial role in providing IT

paediatric counselling & educating the women, how to put up her health and baby's health. Also, the vigorous market statistics will provide a broad approach for the attendees to explore the ideas and issues related to Health care and vide the future of midwives as delegated Digital Ambassadors. Broadly eminence speakers, the most recent frameworks, methodologies, and the most current updates are indicators of Midwifery congress 2020. The market research analysts have predicted the global women's health market to grow at a CAGR of more than 3% over the forecast period. With many countries improving the healthcare facilities, the market for women's health will have a positive outlook in the coming years. Many countries have substantially increased their healthcare budgets as a part of their social security measure. For instance, the US government spend 17% of their GDP on the healthcare sector in 2014. With such increases in the budgets by various countries, the women's health market is expected to show growth until the end of 2020. In the research report, the analysts have estimated factors such as the growing awareness of birth control methods will spur the growth of this market in the forecast period. Contraception and fertility control are supported by the governments of developing nations such as India and China to curb the growing population. However, in western countries, women have stopped using contraceptive pill due to their side effects and are increasingly using IUDs and implants. Therefore, the increasing awareness about alternative growth methods will aid in the growth of this market until the end of 2020.

Candidates applying for the Young Researcher Award should send their resume, and a letter of recommendation (from a research adviser for students or a senior faculty member) to midwiferycong@expert-meetings.com along with the online application form below.
